

Corporate Partner Program

Realize a Healthy California (RHC) is a nonprofit health movement campaign and public community membership organization. RHC is designed to raise awareness about natural medicine and offer accurate health information via both online education projects and local community events. All content and community projects are created and curated by naturopathic doctors with a wide array of knowledge and expertise. Through RHC, the public receives access to trusted expert health knowledge and healthcare that can treat chronic disease across California and create healthier communities.

Vision: Realize a healthy California

Mission: Provide trusted naturopathic and integrative health solutions and resources for Californians, leading to a movement for a healthy land, community, people, and environment.

Your contributions will support our core funding, allowing us to drive our mission and vision forward. With your help, RHC can:

- Broadcast important health news updates via the RHC website and RHC email newsletter
- Provide trusted natural health resources to the public
- Develop an online health community to promote positive health for ALL Californians
- Successfully create impactful community events across the state
- Empower Californians to impact their own health and the health of their communities
- Increase access to naturopathic healthcare, including providing healthcare for underserved populations

Thank you so much for your support!

Partnership Levels: Annual Giving & Benefits

We can seamlessly tailor the following packages to work best for you. Together, we can reach more people and create a larger impact! We have an expanding audience of both lay persons with interest in natural health, and other health industry professionals and executives - including many naturopathic doctors. We perform consistent, active outreach to connect with new people all the time. Together, we can grow!
